

## F3542002 SANARY

A high-performance fabric, SANARY offers exceptional in/outdoor properties: stain resistance and high lightfastness. Using an expertise that is unique in Europe the Pierre Frey workshops in northern France have developed a formula that is unmatched within the market: combining a natural linen weave with highly resistant color pigments and water-repellent properties. In the continuity of the tradition of woven-dyed fabrics, it reinterprets dummy weaving effects by playing with colors and interlacing of threads. This design is declined in a joyful coloring for inside or outside.
