

## F4093001 LES PEUPLIERS ARGENTES

Jean-Luc Favéro draws and creates as naturally as he breathes! This artist with a capital A loves nothing more than painting in the great outdoors, using walnut stain on old second-hand books, depicting the lush landscapes of his native Aveyron. His works express all the exuberance and vitality of the vegetation of southern France. You can almost feel the sun shining through the tree leaves and hear the charming sound of streams and rivers. This extraordinary cotton and linen woven panel is produced in Pierre Frey's EPV-certified workshops in northern France. It features an XXL design of poplar trees in a powerful and joyful green colour. It can be joined together to create a continuous pattern, adding strength and character to the JARDIN À LA FRANÇAISE collection.
