

F4131001 LES PIVOINES

The union of flowers, colour and stencils - three areas of experimentation for Isabelle de Borchgrave.

A tribute to nature, so often painted by the artist, with a modern twist. The peony is a symbol of beauty, generosity and femininity. This motif embodies what characterises Isabelle so well: the joy of bringing flowers into life and the importance of decorating one's home with flowers. The textile adaptation is particularly faithful to the artwork, achieved through a print on linen combining a watercolour effect and white lacquer.
