

## FFRAMBA FRAME

The FRAME line revisits with sophistication the traditional French bench in a minimalist and organic spirit. The base and the frame merge to give the illusion of a piece built in one piece, as if it had been carved from a single block of wood. The top of the base protrudes a few inches, like a connecting die, to create an elegant connection between the frame and the base. The simplicity of the form enhances the beauty of the wood grain.
