

FMILOTD280B MILO

The MILO line, designed by Guillaume Delvigne, consists of coffee tables, a pedestal table, and dining tables. Crafted in oak, the dining tables complete the line in which the coffee tables and pedestal table are also available in lacquered finishes. The tabletops of the coffee tables and the pedestal table appear to float above their central base, creating a sense of perfect balance while enhancing the objects they display. With generous thickness, they feature subtly curved ends that gracefully glide towards the floor, reminiscent of water flow. This gentle and fluid curvature gives the line an organic and architectural look, adding both a feeling of delicate movement and distinctive visual character through the interplay of light on the material. With their refined, impeccably balanced proportions, the dining tables distinguish themselves through the meticulous workmanship of their bases, a genuine tribute to age-old joinery, revisited with striking modernity. Crafted with respect for traditional woodworking and lacquering craftsmanship, this line highlights the beauty, the richness of the materials and seamlessly complements any decor.
