

FP612002 VOYAGE EN TOSCANE LA CAMPAGNE

An invitation to enjoy Tuscany and its relaxing Mediterranean atmosphere. Each original painting illustrates a different scene, to be displayed alone or together according to individual preference, depicting the sea, the countryside and the mountains. Here, the painting depicts the countryside, its cypress-lined roads and the villages of Tuscany. The panoramic VOYAGE EN TOSCANE was created as a Myriorama*. The panels can be displayed in any order. The landscape follows on and is always connected, regardless of the chosen order of display. Each reference joins with itself and/or with the additional references (FP611, FP612 and FP613). A Myriorama is an image, a scene with interchangeable views. Views can be changed and rearranged in any order and to infinity.
