

F4019008 CHROMA

India Mahdavi signe pour Pierre Frey une nouvelle étoffe de velours. Matière inventée au Cachemire, elle est appelée, à l'origine, le "duvet de cygne" et est d'abord utilisée en Iran avant de gagner l'Europe. CHROMA est un velours souple, compact et résistant, 100% coton, offrant au toucher et à l'oeil une douceur extrême. Il se décline dans une palette de coloris unique et singulière et qui complète les gammes existantes. L'utilisation des nanotechnologies pour améliorer les performances de ce velours en font le nouvel indispensable de la Maison. Ce traitement antitache, éco-responsable PFAS-free et classifié CO, limite la pénétration des liquides et conserve parfaitement l'aspect naturel et la douceur du velours.
