

## FP896002 ABKAOU

This wallpaper illustrates with realism an extract of the decoration of the funeral stele of Abkaou. He is represented with his wife receiving offerings. Other scenes evoke the rites celebrated during the feasts of Osiris. The 3D printing retranscribes in an unprecedented way the relief and the details of this limestone stele. Discovered in Abydos, this piece is kept in the Department of Egyptian Antiquities at the Louvre. Coordinated with fabric F3652 ABKAOU.
